ACTIVITY REVIEW

MAIN ACTIVITY

Eurohold Bulgaria AD is a holding company primarily engaged in financial activities related to the acquisition, sale and management of interests and financing of related companies.

The Company has a subject of activity: acquisition, management, evaluation and sale of participations in Bulgarian and foreign companies, acquisition, management and sale of bonds, acquisition, evaluation and sale of patents, assignment of licenses for the use of patents to companies in which the Company participates, as well as financing of companies in which the Company participates.

The Company does not engage in any activities subject to special permitting regimes requiring patents, licenses or other authorizations from regulatory authorities.

In order to optimize management, business processes and fixed costs, the Company has structured its businesses into subholding structures depending on the sector in which they operate. Eurohold Bulgaria AD together with its subsidiary subholding companies and their operating companies form an economic group, the Eurohold Group.

Eurohold manages and supports the business of its economic group through its strategy, risk, financing of affiliates, control, communication, legal advice, human resources, information systems and technology and other functions.

ECONOMIC GROUP

The organizational structure of Eurohold is structured on three levels:

- ✓ **parent company;**
- ✓ **subsidiary companies; and**
- ✓ **operating companies;**

Each of the three levels has its specific functions, business activities and objectives.

Existing business activities as of 30.09.2023

The subsidiary companies represent holding structures, uniting the investments of Eurohold Bulgaria AD in the following sectors:

- **Energy;**
- **Insurance; and**
- **Financial and investment (Investment brokerage and asset management)**

As of 30.09.2023 and as of the date of this report, Eurohold Bulgaria AD has holdings in 24 companies*

| <i>direct participation</i> | <i>indirect participation</i> |
|---|--|
| <ul style="list-style-type: none"> » 4 subsidiaries <ul style="list-style-type: none"> ✓ two sub-holding structures (energy and insurance), ✓ two operating companies (finance - investment mediation and energy) | <ul style="list-style-type: none"> » 2 dedicated energy business development companies » 17 operating companies* (8 energy and 10 insurance) |

*including the insurance company in Romania (Euroins Romania Asigurare-Reasigurare S.A.) - discontinued operations

CHANGES IN THE ECONOMIC GROUP COMPARED TO THE COMPARABLE REPORTING PERIOD

Discontinued operations in 2022

- **Completely ceased business activities**
- **Automobiles; and**
- **Leasing**

As of June 30, 2022, Eurohold Bulgaria AD operated in the following business sectors:

- ✓ **Automobiles (car sales and servicing) through its subsidiary company Auto Union AD; and**
- ✓ **Leasing (financial and operational leasing) through its subsidiary Eurolease Group AD;**

✂ **Discontinued regional business operations in existing businesses**

- **Belarus and Russia;**
- **Romania**

- ✓ On 30 December 2022, Euroins Insurance Group (EIG), signed an agreement for the sale of its subsidiary insurance company in Belarus (100% participation) and the group's 48.61% stake in an insurance company in Russia.

As of the date of the contract (30.12.2022), the results of the two insurance companies have been reclassified as discontinued operations.

- ✓ On 17.03.2023, the Romanian insurance supervision ASF revoked the license of the Romanian insurance company Euroins Romania Asigurare-Reasigurare S.A. (see item C.2.3 Significant events that occurred after the balance sheet date) as a result of which the management of Eurohold Bulgaria AD and of Euroins Insurance Group (EIG) decided to write down the investment in the balance sheet of the companies with the value of the reputation of the Romanian company as of 31.12.2022.
On June 9, 2023, the court in Bucharest decided to declare Euroins Romania Asigurare-Reasigurare S.A. bankrupt.

IMPORTANT EVENTS

INFORMATION ON SIGNIFICANT EVENTS, ACCORDING TO ARTICLE 100o, 4, S.2 OF THE POSA

IMPORTANT EVENTS FOR THE ACTIVITIES OF EUROHOLD BULGARIA DURING THE REPORTING PERIOD

January

- ✓ No significant events have occurred

February

- ✓ **On 10 February 2023** Eurohold Bulgaria informed the public about illegal actions of employees of the Romanian insurance supervision against the Romanian insurance company "Euroins Romania Asigurare-Reasigurare" S.A. (Euroins Romania) part of the group.
Eurohold has informed the FSC and a number of competent state and international bodies and institutions about these actions.
On the website of Eurohold Bulgaria AD, in the news section (www.eurohold.bg), the information published by the company can be followed, as well as the subsequent actions and measures taken.
- ✓ **On 17 February 2023** - The management of Eurohold Bulgaria AD informed the public (news section of www.eurohold.bg) that despite its disagreement with the actions of insurance supervision officials in Romania against the local division of Euroins in order to protect the company from further regulatory overpressure, Euroins Romania concluded a new reinsurance contract with the group's reinsurer - IC EIG Re EAD (EIG Re). This contract guarantees the payment of all claims of the Romanian insurer and ensures the transfer of a significant part (87%) of the risk in its portfolio outside the company, thereby retroceded to leading European reinsurers.

March

- ✓ **On 17 March 2023** - the Romanian financial regulator ASF decided to revoke the insurance activity license of Euroins Romania, part of Euroins Insurance Group AD (EIG), open bankruptcy proceedings and appoint the Fund Insurance Guarantee (FGA) as a temporary company administrator.
In this regard, Eurohold's management made a statement that, notwithstanding this, apart from Euroins Romania, all other subsidiaries and businesses of Eurohold in all the other 11 markets in which they operate, including insurance and energy, are operating and will continue to operate as usual and without any problems, serving their customers and duties and executing their business plans.
Since the beginning of February, when Eurohold publicly raised the alarm about the illegal actions against Euroins Romania, within a month and a half the management of the holding took all the necessary actions to protect the other companies of the group and guarantee their stable and normal functioning, so that in no way will the activity of the other companies in the Eurohold group be affected.
As a result of the decision of the Romanian financial regulator against Euroins Romania, the holding company announced that it has started a procedure to challenge this decision in all competent courts in Europe and around the world.
- ✓ **On 21 March 2023** - Eurohold requested the return of the Euroins Romania license.
At a press conference in Bucharest, the holding warned that the ASF's decision to revoke the license and request for bankruptcy leads to the termination of all reinsurance contracts of the Romanian company, as a result of which all damages and claims will have to be paid by the Guarantee Fund (this condition is basic and standard for each reinsurance contract).

The entire published announcement, including the presentation from the press conference, can be viewed in the news section of the announcement of 21.03.2023 on the website www.eurohold.bg.

- ✓ **On 29 March 2023** - Fitch confirmed limited impact of the case with Euroins Romania on EIG and its remaining subsidiaries.
Fitch Ratings downgraded Euroins Romania from "B+" to "CC" and placed it under monitoring and follow-up development.
At the same time, Fitch Ratings leaves unchanged the ratings of the other companies evaluated by it, which are part of Euroins Insurance Group AD - ZD Euroins AD and the reinsurer EIG Re AD, as well as the group itself. The agency only places them under surveillance with a negative outlook.

April

- ✓ **On 10 April 2023** - The European Bank for Reconstruction and Development (EBRD), which is a minority shareholder in Euroins Insurance Group AD (EIG), part of Eurohold Bulgaria AD, published on its website on April 5 a position on the case with Euroins Romania and on the state of the Romanian insurance market.
The EBRD is in active discussions with all responsible parties to reach a solution in relation to the market turmoil caused by the revocation of Euroins Romania's license.
The EBRD wants to help find a solution, therefore, together with EIG, the bank made a proposal to the ASF to find such a solution. In relation to this proposal, EBRD, EIG and ASF continue to hold constructive discussions.

May

- ✓ No significant events occurred

June

- ✓ **On 9 June 2023**, the court in Bucharest decided to declare Euroins Romania bankrupt.
However, Eurohold informs that Euroins Insurance Group (EIG) and its key subsidiaries remain fully capitalized and viable and continue their normal business operations, ensuring continuity of business relationships and a stable capital position including coverage of the Solvency Capital Requirement.
All other group subsidiaries in and outside the EU remain in full compliance with all local regulatory requirements.
Eurohold thanks all customers, partners and employees for their continued support over the past few months, during which EIG has proven itself to be a stable and viable group that provides reliable services even now.
- ✓ **On 21 June 2023**, one of the major credit rating agencies in the world - Fitch Ratings, confirmed a long-term 'B' rating with a stable outlook for Eurohold Bulgaria AD. In a message from the agency, they also indicate that they are removing the holding from their watch list for a possible negative outlook on the rating (Rating Watch Negative, RWN).
Fitch's assessment reflects the reduction of the company's indebtedness, the reduced reputational risk and the absence of the danger of a liquidity crisis due to the events with the subsidiary Euroins Romania. Fitch also positively assesses the agreement of Eurohold's creditors and bondholders not to make claims in connection with the case with the Romanian insurance company, for which they have committed themselves in writing, providing full support for the company.

Fitch also rates Eurohold's results for 2022 as better than expected. As a result, the indebtedness of the holding decreased to a lower than expected level, and the agency predicts a further improvement of the indicator this year. The strong performance of the holding's energy business contributes to this trend.
- ✓ **On 12.06.2023**, EIG Insurance Group established a subsidiary in Romania PHOENIX MGA SERVICES S.R.L., Romania. EIG is the sole owner of the capital of the newly established company. The main activity of the company is: Consulting in the field of business and management.

July

- ✓ No significant events occurred

August

- ✓ **On 7 August 2023**, Fitch Ratings confirmed a B plus rating with a stable outlook for Euroins and removed the watch over the company Fitch Ratings confirmed a long-term 'B+' rating with a stable outlook for ZD Euroins AD (Euroins Bulgaria) - the largest subsidiary of Euroins Insurance Group AD (EIG), part of Eurohold Bulgaria AD. The same rating was awarded to the reinsurer of the group - EIG Re AD.

Fitch Ratings also indicated that it is removing the two companies from the watch list for a possible negative outlook on the rating (Rating Watch Negative, RWN). This is dictated both by their results and performance, and by the judgment that the business of the group companies remains stable even after leaving the Romanian market.

September

- ✓ No significant events occurred
-

SIGNIFICANT EVENTS OCCURRING AFTER THE REPORTING PERIOD DATE

October

- ✓ **On 2 October 2023**, IG Euroins AD (Euroins Bulgaria), part of the insurance group of Eurohold - Euroins Insurance Group AD (EIG), increased its capital by BGN 15 million (EUR 7.7 million). The funds have been paid and imported, and will be used to finance the company's development in foreign markets, primarily in Greece and Poland - the two largest where the company operates outside of Bulgaria.

With the capital increase, Euroins will further improve its solvency to a level that fully covers and even exceeds the company's risk appetite. Also, the Company strengthens its capital position and provides additional business development opportunities in Southeast Europe.

- ✓ **On 11 October 2023**, Eurohold donated funds to support the Sports and Social School of the Real Madrid Foundation in Vidin.

Over 80 children from the Sports and Social School in Vidin, managed by the Real Madrid Foundation in cooperation with the Friends of Sport Foundation, received invaluable support for the cause of their future development. At a charity auction in Sofia, in the presence of Real Madrid legend Emilio Butragueño, funds were collected for the sustainability of the project in Vidin and for considering the possibility of opening a second sports and social school in Bulgaria.

Eurohold, as a socially responsible company, supports Bulgarian children and especially disadvantaged children, deprived of parental care with a focus on children's health, development and education, for their better future.

The Management Board of Eurohold Bulgaria AD is not aware of any other significant or material events occurring after the closing date of the reporting period.

ACTIVITY RESULTS

Results on an individual basis

Eurohold Bulgaria AD is a holding company with significant investments in subsidiary companies and as such does not carry out independent and regular commercial transactions. The main (operating) income of the holding company is of a financial nature, with the most significant of them - profits from operations with financial instruments and subsequent assessments appearing in different accounting periods and not of a permanent nature.

As of 30.09.2023, Eurohold manages a portfolio of companies in the sectors: energy, insurance, investment mediation and asset management (financial and investment services).

Eurohold Bulgaria AD has a long-term approach to its investments and holds leading positions on the markets in the segments in which it operates.

In this regard, investors and interested parties should analyze the results of this individual financial report together with the consolidated report, giving a clear and complete view of the results, financial position, strategies and development prospects of the Eurohold group.

Analysis of capital and significant changes in capital and liabilities

» Equity

Eurohold's share capital remains unchanged at BGN 260.5 million. The Company's registered capital consists of 260,500,000 fully paid ordinary shares with a par value of BGN 1 per share. All shares are entitled to receive a dividend and a liquidation share and represent one vote at the Company's shareholders' meeting.

In the report for the third quarter of 2023, there was no substantial change in the ownership of shareholders with more than 5% of the shares of Eurohold Bulgaria AD.

Shareholders structure as of 30.09.2023:

| Shareholders | Number of shares /Voting rights/ | % of the share |
|--|----------------------------------|----------------|
| Total shareholders legal entities, incl: | 256 362 747 | 98.41% |
| >Total shareholders over 5% (legal entities) | 215 371 932 | 82.68% |
| >Other legal entities | 40 990 815 | 15.74% |
| Total shareholders private individuals | 4 137 253 | 1.59% |
| Total number of shares with voting rights | 260,500,000 | 100.00% |

Eurohold's equity as of 30.09.2023 is BGN 224 million, with a decrease of 7.8 % compared to the end of 2022 due to the loss realised for the reporting period.

» Subordinated debts

As of 30.09.2023, Eurohold Bulgaria AD has attracted subordinated debt instruments (unissued - Tier 1 capital) in the amount of BGN 8,595 thousand (2022: BGN 8,580 thousand). The increase of BGN 5 thousand is related to accrued interest for the reporting period.

Subordinated debts have no fixed maturity and the lender - Starcom Holding AD cannot demand its repayment, regardless of whether there is a case of non-performance under the agreement. Eurohold Bulgaria AD has the right (but is not obliged) to pay amounts from the loan principal corresponding to each consecutively received tranche after the expiration of 5 years from the date of receipt of the respective tranche. Premature demandability of the principal of the subordinated debt is not allowed, except in cases of liquidation or bankruptcy, after payment of the amounts due to all privileged creditors, as well as to all other unsecured creditors.

The interest due under the contract from 12.08.2021 is 5% on an annual basis on the attracted sums of money for the period of their actual use. The interest due under the contract from 29.11.2022 is 6% + 3M EURIBOR on an annual basis on the borrowed sums of money for the period of their actual use.

» Liabilities

The company's liabilities (without the subordinated debt capital) decreased by 9.5%, amounting to BGN 402.2 million (2022: BGN 444.4 million).

The decrease in liabilities is mainly due to repayments of loans from financial and non-financial institutions during the period.

↳ Liability analysis

Remark: The data presented in the graph are without taking into account subordinated debt instruments in the total liabilities.

Non-current liabilities increased by 14.3%. (BGN 38.1 million), which is mainly due to the following changes:

⇒ Growth in the amount of obligations under bond loans by 2.2% (BGN 5.1 million).

! Information on bond loans issued is available in the Appendices to the Interim Condensed Individual Financial Statement for the first quarter of 2023 (Appendix: 21 Bond Loan Obligations).

- Pursuant to the contract for the purchase and sale of financial instruments, the ownership of 20,500 units was transferred. repurchased own bonds with ISIN BG2100002224, with which the financial relationships with the Assignor under three contracts for the transfer of receivables and their annexes are settled.
- Pursuant to the contract for the purchase and sale of financial instruments, the ownership of 6,000 units was transferred. (acquired) repurchased own bonds with ISIN BG2100002224, which finally settled the financial relationships under the contract for the purchase and sale of Daru Invest EAD (related party until 22.03.2022).
- Pursuant to contracts for the purchase and sale of financial instruments, 20,100 units were bought back. own bonds with ISIN BG2100002224. As a result of the transactions, a profit from operations with investments and financial instruments in the amount of BGN 1,000 was recorded.
- A total of 22,944 units were sold for the period. bought own bonds with ISIN BG2100002224 and reported losses from operations with investments and financial instruments in the amount of 57 thousand BGN and profits from operations with investments and financial instruments in the amount of 4 thousand BGN.
- Pursuant to the Tripartite Agreement and Agreement, the ownership of 495 units was transferred. (acquired) repurchased own bonds with ISIN BG2100002224, which partially settled the financial relationships under the concluded contract for the purchase and sale of shares of Auto Union AD.

⇒ **Growth of non-current liabilities to financial institutions by 91.1% (BGN 15.1 thousand), as a result of:**

- » Extension of the maturity of part of the absorbed loan to JP Morgan ESI, with which EUR 10 million (BGN 19.7 million) have been reclassified as long-term liabilities. The non-current principal is payable in two installments of EUR 5 million in December 2024 and June 2025, respectively.
- » Reduction of liabilities for loans from financial and non-financial institutions by BGN 4.6 million for two loans with the International Investment Bank, due to their accounting in current liabilities;

⇒ **Growth of long-term liabilities to related parties by 131.1% (BGN 18.1 million)**

- » Long-term liabilities to related parties are based on a loan agreement with Starcom Holding AD with an agreed limit of BGN 40 million, an interest rate of 5.5% and a maturity date of 05.05.2025. As of 30.09.2023, the utilized amount under the loan increased to BGN 31.9 million (2022: BGN 13.8 million).

Current liabilities decreased by 44.9% (BGN 80.4 million), which is mainly due to the following changes:

» **Reduction of current liabilities to financial institutions by 56.3% (BGN 95.6 million)**

» From the beginning of 2023 until the end of the reporting period, Eurohold Bulgaria is:

a) fully repaid a loan to the International Bank for Economic Cooperation in the amount of BGN 23.7 million (EUR 12.1 million);

b) reduced the current loan obligation to JP Morgan ES in the amount of BGN 68.6 million (EUR 35 million), which is:

> paid off a partial liability in the amount of BGN 48.9 million (EUR 25 million).

> renegotiated BGN 19.7 million (EUR 10 million) of the remaining principal in the amount of BGN 29.7 million (EUR 15.1 million), in a long-term liability payable in two installments with a final maturity of June 2025;

b) partially repaid a loan to the International Investment Bank in the amount of BGN 3.3 million (EUR 1.7 million)

» **Increase in liabilities to bond loans by 488% (BGN 7.7 million)**

⇒ The reported increase is related to accrued interest during the reporting period on the bond loans. As of 30.09.2023, accrued interest amounts to BGN 9.2 million (2022: BGN 1.6 million).

REVIEW OF THE MAIN RISKS

This section describes our material risks, including how we manage them. If any of the risks described in this section occur, even partly or in combination with other risk factors or circumstances, it could have a material adverse effect on the Company.

The Company's future activity results may differ materially from past results as a consequence of the occurrence of the risks described herein. Taking into consideration the dynamic macroeconomic environment at this time, other risks and/or uncertainties that are not currently known or that we are unable to estimate or are considered immaterial at this time may also occur and they could have a material adverse effect on the Company's business.

We draw attention to the fact that Eurohold Bulgaria AD develops its business through its subsidiaries, in this regard the Company's financial position, operating results and development prospects are directly dependent on the position, results and prospects of its subsidiaries. Each business sector, including the segments in which we operate, is subject to common risks, such as changes in the macroeconomic environment, social, political, financial, regulatory and legislative changes. Our main risks and uncertainties are those that may have the most significant impact on our key group priorities.

a) NON-SYSTEMATIC RISKS

Non-systematic risks are associated with the general investment risk specific to a company, as well as the sector (industry) of the economy in which it operates.

Risks related to Eurohold's operations and structure

As the activity of Eurohold Bulgaria AD is related to the management of other companies, it cannot be attributed to a separate sector of the national economy and it is exposed to the sectoral risks of the subsidiaries. Eurohold's group companies operate in the following sectors: "energy", "insurance" and "investment brokerage and asset management".

The impact of the individual risks of the subsidiaries is proportional to the share of the respective sector in the structure of Eurohold's long-term investment portfolio.

The Holding's main activities are carried out through its subsidiaries, which means that its financial performance is directly linked to the financial performance and development trends of its business units within the economic group.

The existence of companies in the portfolio whose net sales revenues are also generated by products sold to other subsidiaries (related parties) places the performance of these companies in direct dependence on the level of profitability of the customers (related parties), which may negatively affect the profitability of the entire group.

The main risk associated with the operations of Eurohold Bulgaria AD is the possibility of a reduction in the sales revenues of the companies in which it participates and on the receipt of dividends. In this regard, it may have an impact on the company's revenue growth as well as on the change in its profitability.

Deterioration in the performance of one or more subsidiaries could lead to a deterioration in results on a consolidated basis. This is also linked to the company's share price as a result of investors' expectations of

the company's and Eurohold Group's prospects, as the share market price takes into account the business potential and assets of the economic group as a whole.

Risks related to Eurohold's development strategy

Eurohold's future earnings and economic value depend on the strategy adopted by the senior management team of the company and its subsidiaries. Unsuitable strategy choice could lead to significant losses.

Eurohold Bulgaria AD aims to manage the risk of strategic errors by continuously monitoring the various stages in the implementation of its market strategy, and the results thereof. This is essential in order to be able to react in a timely manner if a change is required at a particular stage in the strategic development plan. Untimely or inappropriate changes in strategy could also have a material adverse effect on the Company's business, operating results and financial condition.

Risks related to the management of Eurohold

The Company's management risks might be:

- making the wrong decisions about the day-to-day investment management and liquidity of the Company and the Group as a whole, both by Eurohold's senior management and operational staff;
- management's inability to start the implementation of planned projects or lack of suitable staff for specific projects;
- possible technical errors of the unified management information system;
- possible errors of the internal control system;
- the key staff leaving and the inability to recruit staff with the necessary qualities;
- risk of excessive increases in management and administration costs leading to a reduction in the overall profitability of the company.

Risks associated with Eurohold's inability to raise capital to fund its strategic objectives

The capability of Eurohold Bulgaria AD to grow and implement its strategies depends to a large extent on its capacity to raise capital. The volatility of the financial markets, as well as any apparent lack of trust between financial institutions, could make it significantly more difficult to raise long-term capital on reasonable terms.

The management of Eurohold Bulgaria AD supports the efforts of the Group's subsidiaries to attract bank resources for investment and to use the opportunities provided by this type of financing to secure working capital. The volumes of these raised funds are maintained at certain levels and are authorised after demonstrating the economic efficiency for each company.

The Management policy is to raise financial resources from the market mainly in the form of equity securities (shares), debt instruments (bonds) and borrowings from banking and non-banking institutions. The Company use them to invest in its subsidiaries, to finance their projects by increasing their capital or providing loans. Additionally, Eurohold Bulgaria AD monitors the capital structure of each company and takes action to maintain the regulatory capital requirements for each business segment by increasing their capital.

Risk of lack of liquidity

Liquidity risk is associated with the possibility that "Eurohold Bulgaria" JSC will not repay its obligations in the agreed amount and/or in due time when they become due. The issuer seeks to minimize this risk through optimal cash flow management within the group itself. The group applies an approach that aims to provide the necessary liquid resource to meet obligations under normal or extraordinary conditions, without incurring unacceptable losses or damaging the reputation of individual companies and the economic group as a whole.

Subsidiaries make financial planning, with which they aim to meet the payment of and their current expenses for a period of ninety days, including the servicing of financial obligations. This financial planning minimizes or completely excludes the potential effect of the occurrence of extraordinary circumstances.

Risk of possible transactions between companies in the group, the terms of which differ from the market's

Relationships with related parties arise under temporary financial assistance agreements of subsidiaries and in connection with transactions related to the ordinary business activities of subsidiaries.

The risk of possible transactions between the companies in the Group under conditions that differ from market terms is expressed in: a) assuming a risk to achieve a low yield from interest on provided intra-group financing; b) when carrying out intra-group commercial transactions, there is a risk that sufficient revenues will not be generated, and hence a good profit for the respective company. At a consolidated level, this may reflect negatively on the profitability of the entire group.

Within Eurohold, transactions between the parent company and the subsidiaries and between the subsidiaries themselves, arising from the nature of their core business, take place on an ongoing basis. All transactions with related parties are carried out on terms that do not differ from normal market prices and in compliance with IAS 24 'Related Party Disclosures'.

Eurohold Bulgaria AD operates through its subsidiaries, which means that its financial results are directly dependent on the financial performance, development and prospects of its subsidiaries. Poor performance of one or several subsidiaries could lead to a deterioration of financial results on a consolidated basis.

b) SYSTEMATIC RISKS

Macroeconomic risk

Macroeconomic risk is the risk of shocks that may affect economic growth, population income, supply and demand, the profits generated by economic entities, etc. These shocks include global economic and business conditions, fluctuations in national currencies, political events, changing legislation and regulatory requirements, priorities of national governments, etc. Trends in the macroeconomic environment affect the market performance and the final results of the activity of all sectors of the economy. Bulgaria has an open economy and its development depends directly on the international market conditions.

Trends in the macroeconomic environment affect the market performance and the final results of the activity of all sectors of the economy.

The outcome of some risks related to the international environment will depend to a large extent on the plans and preventive measures of individual countries and international institutions, which is also evident from the latest global economic crisis and the Covid-19 pandemic. The risk of the international environment influence on companies cannot be diversified and affects all players, but on the other hand, it can become an engine for the development and implementation of innovations and digitalization, which can drastically change and increase the efficiency of business on a global scale.

The macroeconomic situation and economic growth on a global scale are of fundamental importance for the development of Eurohold Bulgaria AD and its subsidiaries, including the state policies of the respective countries in which it operates and, in particular, the regulations and decisions taken by the respective Central Banks, which affect monetary and interest policy, exchange rates, taxes, GDP, inflation, budget deficit and external debt, unemployment rate and income structure.

Macroeconomic trends such as: the global economic crisis; the impact of the force majeure event that occurred at the beginning of 2020 due to the worldwide Covid-19 pandemic and the measures taken by the governments of the affected countries; slowing down of economic growth; the risk of systematic global financial fluctuations; periodic fiscal imbalances; changes in exchange rates for certain currencies; volatility in the prices of energy products; economic and political uncertainty in some regions of the world; the

reduction of economic and consumer activity, may have an adverse effect on the business results, financial condition, profit and profitability or expected growth of the Group.

The development of Bulgaria's economy faces the risk of external influences and depends directly on international market conditions. The presence of unfavorable macroeconomic conditions in Bulgaria, including an increase in unemployment and inflation, as well as fiscal instability may have a material adverse effect on the Company's business, its financial condition and/or its results of operations.

The Eurohold's group carries out operations in Bulgaria and additionally in a number of other European countries, respectively its overall financial position and the results of its operations are affected by the economic, legal and political conditions in these countries. Any deterioration in macroeconomic conditions in such countries or in the wider CEE / SEE region could adversely affect certain products and services offered by the group and result in lower revenues than originally planned. Moreover, general changes in government policy and regulatory systems in such jurisdiction may increase the Group's operating costs and capital requirements. Any future periods of economic slowdown or slow economic growth in any of the markets in which the Group operates could have an adverse effect on the Group's business, financial condition, cash flows, results of operations or prospects.

Manifested macroeconomic risks in 2023 and at the date of preparation of this Report.

↳ The Covid-19 pandemic

We are currently witnessing macroeconomic risk arising in early 2020 from the scale and spread of the coronavirus (Covid-19) pandemic, which has affected the entire world and dramatically influenced the global macroeconomics and economic growth. The Covid-19 pandemic significantly slowed down much of the growth in the global economy at the end of the first and throughout the second quarter of 2020, and the activity in some sectors was almost completely suspended. As a result of the measures imposed by governments to deal with the pandemic, a significant amount of international trade was impeded. This has greatly hampered the production process as a result of disrupted supply chains and reduced domestic and foreign demand. Tightening of restrictive measures in response to the significant increase in the number of people infected with the coronavirus (Covid-19) in various countries has led to a decline in economic activity. Globally, the subsequent business results from the economic disruptions caused by the pandemic were: a worsening economic outlook, a significant increase in expected credit losses and other impairments, and a decrease in revenue due to lower volumes and reduced customer activity.

In 2021 and early 2022, the Covid-19 pandemic continued to impact the health system, the social environment and the economy. Deviations in the prices of energy resources had a strong impact, as did the displacement of trade relations, leading to a worldwide wave of intense inflationary pressure. After the start of mass vaccination, a gradual recovery of the global and local economy and the expected recovery of global activity also began. The labor market also developed favorably, and unemployment continued to decline. The banking system remained stable, well capitalized, with high levels of liquidity meeting regulatory requirements.

At the moment, uncertainties and risks to the economy still exist. The latest wave of the coronavirus actively developed in early 2022 led to a new slowdown in economic recovery in Europe, accompanied by high inflation, absences from work and work in an online environment, increasing shortages of materials, equipment and labor. Record energy prices have further increased the cost of living and reduced the purchasing power of Europeans, especially in low-income households. In general, the impact of the pandemic on economic activity has generally weakened over time, including that the slowdown in the recovery did not last long, given the abatement of the last wave and the lifting of restrictive measures.

In the future, possible new waves of infection, correspondingly imposed anti-epidemic measures and prolonged staff shortages could prevent recovery / or lead to a further deterioration of economic activity. They could also delay the functioning of critical supply chains for a longer period of time. On the other hand, weaker demand growth in the near term may help overcome supply constraints a little sooner than expected.

Apart from the general effects of the pandemic on all economic entities, it does not directly affect the currently existing businesses of the companies of the Eurohold group. During the Covid-19 active period, only the automotive and leasing businesses were affected, but they were sold in the middle of 2022. Bearing this in mind, possible new waves of the spread of Covid-19 would not have significant segmental effects on the

energy, insurance and financial - investment business in the group. At this stage, management's assessment of the peak periods of the pandemic is that, with timely and flexible measures, the Eurohold's group has managed to cope with the consequences of the situation and reduce the impact on it as much as possible. Management continues to monitor new manifestations and effects of the pandemic to take preventive measures and solutions in order to preserve the health of workers and minimize the impact of the crisis caused by Covid-19.

Military actions on the territory of Ukraine

The hostilities between Russia and Ukraine have received widespread international condemnation and numerous countries have imposed sanctions on assets and operations owned by the Russian state and certain individuals. This conflict began at a time when the world economy, including Bulgaria's one, was gaining momentum after the peak of the Covid-19 crisis and calls into question the previous forecasts for the economic growth of Europe and Bulgaria in particular. The IMF notes that the sanctions imposed by a number of countries against Russia have an impact on the global economy and financial markets, and will have significant side effects in other states as well. In many countries, the crisis generated adverse shocks to both inflation and activity amid already heightened price pressures. Central banks closely monitor the impact of rising international prices on domestic inflation, with a view to monitoring and, where necessary, taking appropriate, carefully considered responses. Fiscal policy will need to support the most vulnerable households to offset rising living costs.

The economic consequences of the military conflict in Ukraine cannot be fully assessed at this stage of development, but they indicate extremely serious price effects on the overall global economy, substantial growth in inflation, and difficulty in supplying energy resources. Other manifested effects of the beginning of hostilities are: a decline in economic growth, the risk of a humanitarian crisis in connection with a refugee wave of Ukrainian citizens, an uncertain international environment, problems with gas supplies and a significant increase in gas prices, a surge in prices when trading with electricity, fuels and other petroleum products, supply chain constraints due to restrictive and logistical problems, high volatility in stock markets under the pressure of fluctuations in fuel and other basic resource markets, increased interest rates, a shaky banking system, etc.

If the conflict continues to develop, the economic damage will be significant for all sectors of the economy, both of Bulgaria and the EU, including the sectors and regions in which the Eurohold's group operates. Eurohold's management follows with concern the development of the military conflict between Russia and Ukraine, and evaluates its impact on the Group's business, analyzing the impact on both sides of the conflict in order to take measures, decisions and concrete actions to mitigate the effects on the group. Eurohold Bulgaria AD, through its subsidiary Euroins Insurance Group AD, owns investments in two insurance companies in Ukraine, and until the end of 2022, one in Belarus and one with a minority stake in Russia.

The management of Eurohold provided assistance and support to the staff in Ukraine and their relatives. In the first half of March, Euroins Insurance Group AD successfully evacuated 80 of its employees, their relatives and friends from Ukraine to Bulgaria. The Ukrainian citizens are accommodated in a holiday village on the Bulgarian Black Sea coast, where they are provided with shelter, food and medical assistance. Some of the evacuated employees continue to perform their duties remotely in a specially equipped room with the necessary tools.

At the end of 2022, the management of Eurohold Bulgaria and the subsidiary Euroins Insurance Group decided to release the insurance group from its participation in the companies in Belarus and Russia (associated participation). On December 30 2022, Euroins Insurance Group (EIG) signed an agreement for the sale of the two companies, as from the date of the agreement, EIG and Eurohold will not consolidate the results of these companies in their report. Until the date of the transaction, EIG owned 100% of the company's capital in Belarus and 48.61% of that in Russia. These participations added insignificant values to the consolidated results against the background of the assets of the insurance subholding and the assets of Eurohold Bulgaria AD. EIG's business in the two countries accounted for less than 1% of the insurance group's 2022 revenue.

Macroeconomic forecast

According to the latest Economic Bulletin of the ECB, no. 8/2022 - The global economy is slowing amid ongoing geopolitical uncertainty, particularly as a result of Russia's unjustified war against Ukraine, and a widespread tightening of financing conditions. As the economic fallout from the war in Ukraine continues to play out and fuel strong inflationary pressures, indicators of consumer and business confidence remain weak, with real disposable incomes falling and rising cost pressures constraining output. The negative economic consequences are expected to be partially mitigated by fiscal policy measures. In the medium term, as the energy market rebalances, uncertainty is expected to decrease and real incomes to improve. As a result, economic growth is expected to pick up, supported by strengthening external demand and the removal of remaining supply constraints, despite less favorable financing conditions. The labor market is expected to remain relatively resilient in the coming moderate recession. Overall, average annual real GDP growth is expected to slow significantly, from 3.4% in 2022 to 0.5% in 2023, before accelerating to 1.9% in 2024 and to 1.8% in 2025.

In the Macroeconomic Forecast of the BNB from June 2023, the real GDP growth in 2023 is expected to slow substantially to 1.0% (from 3.4% in 2022), driven mostly by a shift from a positive to a negative contribution from inventory change in the economy. Real GDP growth is expected to accelerate to 3.2% in 2024, mainly due to the contraction of the negative contribution of stock change, and to 4.0% in 2025, due to an expected significant acceleration in investment growth, mainly resulting from the implementation of projects under the National Recovery and Sustainability Plan.

Annual inflation, as measured by the Harmonised Index of Consumer Prices (HICP), is forecast to slow to 5.7% at the end of 2023, due to the decline in energy prices and lower growth rates of prices of other goods and services due to the build-up of a base effect compared to the previous year. Annual average inflation is expected to be 8.7%, with consumer price pressures remaining significant in the short term as a result of limited pass-through by firms of falling international prices of key agricultural and energy commodities to final consumer prices in an environment of strong consumer demand.

The HICP growth rate is forecast to slow to 3.4% at the end of 2024 and reach 3.0% at the end of 2025, in line with the easing of inflationary pressures from commodity prices as well as due to the projected slowdown in firms' labour cost growth.

Source: www.bnb.bg

Eurohold Bulgaria AD strives to monitor the probability of the macroeconomic risk and develops group measures to mitigate as much as possible the impact of the effects that the presence of this risk may have. However, the Holding cannot completely exclude and limit its influence on the business, financial position, profits and cash flows at the group level. There is also the possibility that the occurrence of this risk may exacerbate other risks or a combination of risks.

Political risk

Political risk reflects the impact of political processes in the country on the economic and investment process and, more specifically, on the return on investment. The degree of political risk is determined by the probability of changes in an unfavorable direction of the government's long-term economic policy, which may have a negative impact on investment decisions. Other factors related to this risk are possible changes in the legislation and in the tax system regarding the economic and investment climate in the country.

The Republic of Bulgaria is a country with political and institutional stability, based on modern constitutional principles such as a multi-party parliamentary system, free elections, ethnic tolerance and a clearly defined system of separation of powers.

Among the political risks are the successful continuation of Bulgaria's integration into the European Union (EU). After the admission of our country to the EU at the beginning of 2007, economic reforms were imposed in the name of the integration of our country into the European Union. In the future, economic growth will depend on the political will to continue economic reforms, with the aim of introducing the best market practices of the EU in economic, political, social, legal, financial terms.

Despite the stable policy pursued so far, there is no certainty that factors will not appear in the country that would cause social and political tension, lead to a significant and abrupt change in the political and economic conditions, which could have a significant adverse effect on business. Currently, the political situation in Bulgaria is not particularly stable. This instability manifested itself in April 2021 since the country faced the inability to form a regular and stable government. Domestic political uncertainty continues with a caretaker government currently in place. This also contributed to a lag in Bulgaria's preparations for joining the Eurozone, which is why the same is being postponed at this stage. At the present time, the country is governed by the newly formed government after the last parliamentary elections on 02.04.2023.

Given the current political situation, it is possible that political and public disagreements may arise in the country regarding possible legislative changes, and in particular those concerning the economic and investment climate in the country. Also, at this moment, there is no political consensus in the country regarding the complicated geopolitical situation in the region due to the development of the Russian-Ukrainian crisis.

A potential political instability in the country and in Europe could have a significant adverse effect on the Company and its group's business, operating results and financial condition. The company through its subsidiaries operates in the regions affected by the military conflict and in this sense is also vulnerable to foreign policy risks and their effects on the economy of the country, the regions affected by the conflict and Europe as a whole.

Given the uncertainty of the outcome of the emerging dynamic political and economic environment, users of this Report should consider the presence of political risk according to their own understanding and expectations.

Country's credit risk

Credit risk is the probability that a country's international credit ratings will deteriorate. Low credit ratings could lead to higher interest rates, more difficult financing conditions for economic entities, including Eurohold.

Credit ratings serve as a basis for measuring and determining a country's credit risk. The latest credit ratings awarded to Bulgaria are as follows:

On 13.05.2023, the international rating agency Fitch Ratings confirmed Bulgaria's long-term credit rating in foreign and local currency 'BBB' with a positive outlook.

According to the agency, Bulgaria's rating is supported by the country's strong external and fiscal position compared to countries with the same rating, the reliable political framework of EU membership and the long-term functioning of the currency board regime. On the other hand, the low share of investment relative to GDP and unfavorable demographic factors weigh on potential economic growth and public finances in the long term.

The positive outlook reflects the country's plans for eurozone membership, which could lead to further improvements in the country's external position indicators. Despite a series of snap parliamentary elections over the past two years, the rating agency believes key political parties remain committed to adopting the euro. According to Fitch Ratings, the necessary legislative amendments should be adopted after the political environment stabilizes, and the risks surrounding the date of entry into the eurozone are mainly related to the fulfillment of the price stability criterion.

Source: www.minfin.bg

On 04.02.2023, the international rating agency Moody's affirmed the long-term rating of Bulgaria in foreign and local currency Baa1 with a stable outlook.

The affirmation of Bulgaria's Baa1 rating balances the following key factors: 1) Moody's expectations that an energy crisis in Europe will not significantly weaken the country's economic and fiscal position. 2) Support for Bulgaria's credit profile stemming from the prospect of euro adoption, despite the risk of a delay in adoption

beyond 2024. 3) Risks to the government's effectiveness and progress on key priorities stemming from the protracted domestic political stalemate in the country.

The stable outlook reflects Moody's expectations of relatively little fluctuation in the country's main economic and fiscal indicators over the next 12 to 18 months. It also reflects the balance of risks between the potential negative effects on the credit profile arising from the political situation in the country and the potential positive effects of the eventual adoption of the euro.

Source: www.minfin.bg

The adoption of a consistent and long-term economic policy in Bulgaria would be a valid reason for the potential increase in the country's credit rating, which in turn would have a favorable impact on the economic group of Eurohold expressed in the Group's financing opportunities. In the event of a downgrading of Bulgaria's credit rating, as a result of the unstable governance of the country, there may be a negative impact on the Group and on the cost of financing, except in the case that its loan agreements are with fixed interest rates.

Inflation risk

Inflation risk is associated with the likelihood that inflation will affect real investment returns. The main risks related to the inflation forecast relate to the dynamics of international prices and the rate of economic growth in Bulgaria. International prices of raw materials and food products may rise more significantly as a result of political crises such as are currently available or an increase in demand. The limited supply of some agricultural goods and especially cereals internationally in connection with adverse climatic events or force majeure circumstances may additionally cause higher inflation in the country.

According to NSI data, according to the consumer price index (CPI), monthly inflation in September 2023 was -0.1% compared to the previous month, and annual inflation for September 2023 compared to September 2022 was 6.3%. Year-to-date inflation (September 2023 vs. December 2022) is 3.6%, and average annual inflation for the period October 2022 - September 2023 vs. October 2021 - September 2022 is 12.4%.

According to HIPC, in September 2023, monthly inflation was -0.3% compared to the previous month, and annual inflation for September 2023 compared to September 2022 was 6.4%. Year-to-date inflation (September 2023 vs. December 2022) is 4.2%, and average annual inflation for the period October 2022 - September 2023 vs. October 2021 - September 2022 is 10.8%.

According to the price index for the small basket in September 2023, an increase of 0.5% on a monthly basis and an increase of 3.7% since the beginning of the year (September 2023 compared to December 2022) were recorded.

Източник: www.nsi.bg

According to the Macroeconomic Forecast of the BNB from December 2022, annual inflation is expected to slow to 4.2% at the end of 2023 and to 3.3% at the end of 2024. Despite the expected slowdown of inflation at the end of 2023, on average for 2023 it is expected to remain high (7.0%) as, in the near term, pressures on producer prices, including from past increases in commodity prices, tight supply and labor shortages, will continue to weigh on consumer prices.

Източник: www.nsi.bg

In general, inflation can affect the amount of the Company's expenses, since part of the company's liabilities are interest-bearing. Their service is linked to the current interest rates, which also reflect the inflation rates in the country. Therefore, the maintenance of low inflation levels in the country is considered a significant factor for the activity of the Eurohold group.

At the present moment and in general, the currency board mechanism provides guarantees that the inflation in the country will remain under control and will not have an adverse impact on the economy of the country, and in particular on the activities of the Company and its group, and from there on its possibility to service its debt positions.

However, the current geopolitical situation in Europe makes the outlook for inflation in the Eurozone very uncertain and depends crucially on the development of the military conflict, the impact of current sanctions and possible further measures.

Given this, users of this Report should carefully consider and account for both current levels of inflation risk and future opportunities for its manifestation.

Currency risk

This risk is related to the possibility of depreciation of the local currency. For Bulgaria, specifically, this is a risk of premature rejection of the conditions of the Currency Board at a fixed exchange rate of the national currency, which would lead either to a devaluation of the leva or to an appreciation of the leva compared to foreign currencies. Any significant depreciation of the BGN may have a significant adverse effect on business entities in the country, including the Company. Risk also exists when the income and expenses of a business entity are formed in different currencies.

Given the policy adopted by the government and the BNB, expectations are for the currency board to be retained until the country's admission to the Eurozone. Bulgaria is expected to join the currency mechanism with its existing currency board regime, where the Bulgarian lev is fixed at 1 euro = 1.95583 leva. The National Plan for the introduction of the euro in Bulgaria describes the principles, the institutional and legal-normative framework for the adoption of the euro, as well as the main activities for the successful introduction of the euro from January 1, 2024. The document examines all the important operational activities and measures that participants in the preparation for the introduction of the euro - the private, public sector and citizens - should carry out as part of the process of introducing the euro.

The activity of the Company does not presuppose exposure to significant currency risk, because almost all its operations and transactions are denominated in Bulgarian levs and euros, and the latter has a fixed exchange rate against the lev.

Significant changes in the various exchange rates of subsidiaries outside Bulgaria - operating in Romania, North Macedonia, Ukraine, Georgia and Belarus, Macedonian Denar (MKD), Ukrainian Hryvnia (UAH), Georgian Lari (GEL) and Belarusian Ruble (BYR), whose exchange rate is determined almost freely in the local currency market would have a corresponding reflection in Eurohold's group results. The consolidated revenues of "Eurohold Bulgaria" AD will be exposed to currency risk depending on the movement of these currencies against the euro.

Interest rate risk

Interest rate risk is related to the possibility of a change in the prevailing interest rates in the country. Its impact is expressed by the chance that the net income of companies may decrease due to an increase in the interest rates at which the Issuer finances its operations. Interest rate risk is included in the category of macroeconomic risks due to the fact that the main prerequisite for a change in interest rates is the occurrence of instability in the financial system as a whole. This risk can be managed through the balanced use of different sources of financial resources.

An increase in interest rates would, all other things being equal, affect the cost of the financial resources used by the Company in implementing various business projects. It may also affect the Company's cost base as a significant portion of the Company's liabilities are interest bearing and their servicing is linked to current interest rates. The current trend is towards gradual increase in interest rates by the Central Banks.

Trends on interest rates, according to the ECB, are for a significant increase at a steady pace until reaching restrictive levels in order to ensure a timely return of inflation to the medium-term target of 2%.

Risk of high levels of unemployment

The risk associated with unemployment is characterized by a drop in the demand for labor force, influenced by the real aggregate demand in the economy, as a result of which the real purchasing activity of a part of the economic entities decreases.

High levels of unemployment can seriously threaten economic growth in the country, which in turn can lead to a contraction of consumption and a decrease in the revenues realized by economic entities in the country, including the revenues realized by the Company and its subsidiaries.

According to the latest NSI data, the unemployment rate in the second quarter of 2023 was 4.6%, or 0.1 percentage points higher than in the second quarter of 2022. Unemployed persons in the second quarter of 2023 are 141.0 thousand, of which 75.1 thousand (53.3%) are men and 65.9 thousand (46.7%) are women. The coefficient of economic activity for the population aged 15 - 64 years is 73.7%, and compared to the second quarter of 2022, it increases by 0.3 percentage points.

Source: www.nsi.bg

Risks associated with regulatory changes. Regulatory risk

The Company's results may be impacted by regulatory changes. The Eurohold Group operates in a highly regulated environment in various European countries. The possibility of more radical changes in the regulatory framework, in the interpretation or practice of implementing legislation, and in the divergence of legislation and regulations in Bulgaria and in the countries in which the Company operates and his Group, could have an adverse effect on its business as a whole, its operating results, and its financial condition.

Financial risk

Financial risk represents the additional uncertainty to the investor of receiving revenue in cases where the company uses borrowed or leveraged funds. This additional financial uncertainty adds to the business risk. Where part of the funds with which the company finances its activities are in the form of loans or debt securities, the payments for these funds represent a fixed obligation.

Risk of increased competition

All sectors in which the Eurohold Group subsidiaries operate are characterised by a highly competitive environment. The future success of the Group will depend on the ability of Eurohold and its subsidiaries to remain competitive compared to other companies operating in a given market segment.

c) RISK MANAGEMENT AND MINIMISATION MECHANISMS

The elements outlining the framework for the management of individual risks are directly related to specific procedures for the timely prevention and resolution of potential difficulties in the operations of Eurohold Bulgaria AD. They include ongoing analysis in the following areas:

- market share, pricing policy, market research and market development and market share studies;
- active investment management in different sectors and industries;
- a comprehensive asset and liability management policy for the Company and the Group to optimise the structure, quality and return on assets;
- optimising the structure of funds raised with a view to ensuring liquidity and reducing financial costs across the Group;
- effective cash flow management at group level;
- optimising administration, management and external service costs;
- human resources management

Overall risk management is focused on minimising potential negative effects that could impact the Group's financial performance. Financial risks are identified, measured and monitored on an ongoing basis using

various controls to determine appropriate pricing for the services and products offered by Eurohold's Group companies and for the borrowed capital raised by them. An adequate assessment of the market circumstances, the borrowed capital, the investments and the forms of maintenance of the free liquid funds is carried out, without allowing unjustified concentration of a given risk.

The occurrence of unforeseen events, incorrect assessment of current trends, as well as a host of other micro- and macroeconomic factors, may affect the judgement of the Company's management team.

INFORMATION ON LARGE RELATED PARTY TRANSACTIONS IN THE FIRST NINE MONTHS OF 2023

All transactions concluded with related parties, including material ones, are disclosed in this report and in the Appendices to the interim condensed individual financial statement for the first nine months of 2023.

Notes to the annual separate financial statements for the first nine months of 2023

1. Information about the company

Eurohold Bulgaria AD (the Company) is a public joint stock company established pursuant to the provisions of article 122 of the Law for Public Offering of Securities and article 261 of the Commerce Act.

Founded in 1996, Eurohold Bulgaria AD operates in Bulgaria, Northern Macedonia, Ukraine, Georgia and Greece through a large number of subsidiaries in the sectors of insurance, financial services, energy, car sales (until 30.06.2022) and car leasing (until 30.06.2022).

The company is registered in the Sofia City Court under corporate file 14436/2006 and is formed through the merger of Eurohold AD registered under corporate file № 13770/1996 as per the registry of Sofia City Court, and Starcom Holding AD, registered under corporate file № 6333/1995 as per the registry of Sofia City Court.

Eurohold Bulgaria has its seat and registered address in the city of Sofia, P.B. 1592, Iskar Region, 43 Hristofor Kolumb Blvd., UIC 175187337.

The governing bodies of the company are the General Meeting of Shareholders, the Supervisory Board and the Management Board /two-tier system/ comprising the following members as at 30.09.2023:

- Leasing services
- Car rentals

2. Basis for Preparation of the Separate Financial Statements

The interim condensed separate financial statements of Eurohold Bulgaria AD have been prepared in accordance with IAS 34 Interim Financial Reporting, developed and published by the International Accounting Standards Board and adopted by the European Union. It does not contain all the information required to prepare an annual financial statement in accordance with International Financial Reporting Standards (IFRS) and should be read in conjunction with the company's annual financial statements as of 31 December 2022.

This interim condensed financial statement is individual, where investments in subsidiaries are presented at cost.

The Company also prepares consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), developed and published by the International Accounting Standards Board (IAS) and adopted by the European Union (EU), in which investments in subsidiaries are reported and disclosed in accordance with IFRS 10 "Consolidated Financial Statements".

The interim condensed separate financial statements are prepared in Bulgarian levs, which is the functional and reporting currency of the Company. All amounts are presented in thousands of BGN (thousands of BGN) (including comparative information for 2022), unless otherwise stated. As of 1 January 1999, the Bulgarian lev has a fixed exchange rate against the euro: BGN 1.95583 per 1 euro.

These interim condensed separate financial statements have been prepared on a historical cost basis, modified in certain cases by revaluation of certain assets and / or liabilities at their fair value at the date of preparation of the interim separate financial statements, as set out in the relevant notes.

The interim condensed separate financial statements have been prepared in accordance with the going concern principle.

As at the date of preparation of these interim condensed separate financial statements, the management has assessed the ability of the Company to continue its activities as an operating enterprise based on the available information and the foreseeable future. Following the review of the Company's activities, the management expects that the Company will have sufficient financial resources to continue its operational activities in the near future and continues to apply the going concern principle in preparing the interim condensed separate financial statements.

Management believes that the Company is operational and will remain so for the foreseeable future. It has no intention or need to eliminate or make changes beyond its normal course of business.

Eurohold Bulgaria AD as a holding company does not perform regular commercial activity and does not provide financial services.

2.1. Accounting policy

The Company has not made any changes in its accounting policy in connection with the application of new and / or revised IFRS that are effective for the current reporting period, starting on 1 January 2023, because during the period there were no objects or operations that are affected by the changes and amendments to IFRS.

2.1.1. New standards, interpretations and amendments effective 1 January 2023, which are approved for implementation by the EU

The Company applies the following new standards, amendments and interpretations, which came into force this period and are as follows:

- *IFRS 17 "Insurance Contracts" and its amendments effective from 1 January 2023, adopted by the EU - no impact on the Company's financial statements;*
- *Amendments to IFRS 17 Insurance contracts: Initial Application of IFRS 17 and IFRS 9 – Comparative Information effective from 1 January 2023 adopted by the EU - no impact on the Company's financial statements.*

2.1.2. Documents issued by IASB / IFRIC, which are not endorsed in the EU

At the date of authorisation of these interim condensed separate financial statements, certain new standards, amendments and interpretations to existing standards have been issued, but are not effective or adopted by the EU for the financial year beginning on 1 January 2023 and have not been applied early by the Company. They are not expected to have a material impact on the Company's financial statements. Management anticipates that all relevant pronouncements will be adopted in the Company's accounting policies for the first period beginning after the effective date of the pronouncement. A list of the changes in the standards is provided below:

- *Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting policies effective from 1 January 2023, adopted by the EU;*
- *Amendments to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates effective from 1 January 2023, adopted by the EU;*
- *Amendments to IAS 12 Income Taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction effective from 1 January 2023 adopted by the EU;*

- *Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current effective from not earlier than 1 January 2024 not yet adopted by the EU;*
- *Amendments to IFRS 16 Leases: Lease Liability in a Sale and Leaseback effective not earlier than 1 January 2024 not yet adopted by the EU;*
- *IFRS 14 Regulatory deferral accounts, effective from 1 January 2016, not adopted by the EU;*
- *Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements: Disclosures effective from 1 January 2024 not yet adopted by the EU;*
- *IFRS S1 General requirements for disclosure of sustainability-related financial information, effective from on or after 1 January 2024, not yet adopted by the EU;*
- *IFRS S2, Climate-related disclosures, effective from on or after 1 January 2024, not yet adopted by the EU.*

2.1.3. Changes to the approximate estimates

In the course of preparation of the interim condensed separate financial statement the management makes a number of assumptions, estimates and presumptions regarding the recognition and measurement of assets, liabilities, income and expenses.

Actual results may differ from the management's assumptions, estimates and presumptions and, in rare cases, entirely correspond to the previously assessed results.

In the preparation of the current interim condensed separate financial statement presented, the significant judgments of the management in the application of the Company's accounting policies and the main sources of uncertainty of the accounting estimates do not differ from those disclosed in the annual financial statements of the Company as at 31 December 2022.

For the purposes of presenting these interim condensed separate financial statements, reviews for impairment of trade and other receivables have been determined.

2.1.4. Risk management

The Company is exposed to various types of risks with respect to its financial instruments. The most significant financial risk to which the Company is exposed are market risk, credit risk and liquidity risk.

The interim condensed separate financial statement does not include the entire information on risk management and disclosures required in the preparation of annual financial statements and should be read together with the Company's annual financial statements as at 31 December 2022. There were no changes in the risk management policy related to financial instruments during the period.

2.1.5. Other risks – macroeconomic risks

The economic consequences of the military conflict in Ukraine and the unprecedented increase in the price of energy resources in 2022 have had serious price effects on the overall global economy, a substantial rise in inflation and a difficulty in the supply of energy resources. Other manifested effects of the beginning of the hostilities are: a decline in economic growth, an uncertain international environment, problems with gas supplies and a significant increase in gas prices, a surge in prices for trading in electricity, fuels and other petroleum products, difficulties in the supply chain, due to restrictive and logistical problems, strong volatility in stock markets under the pressure of fluctuations in fuel and other basic resource markets, increased interest rates, a shaky banking system, etc.

The company has analyzed, on the basis of the currently available data, the potential effect on its financial position and, in particular, on the models used, according to IFRS 9.

This disclosure complies with the requirements of IFRS 7 and IFRS 9, as well as the recommendations of the European Securities and Markets Authority (ESMA).

Macroeconomic forecast

According to the latest Economic Bulletin of the ECB, no. 8/2022 - The global economy is slowing amid ongoing geopolitical uncertainty, particularly as a result of Russia's unjustified war against Ukraine, and a widespread tightening of financing conditions. As the economic fallout from the war in Ukraine continues to play out and fuel strong inflationary pressures, indicators of consumer and business confidence remain weak, with real disposable incomes falling and rising cost pressures constraining output. The negative economic consequences are expected to be partially mitigated by fiscal policy measures. In the medium term, as the energy market rebalances, uncertainty is expected to decrease and real incomes to improve. As a result, economic growth is expected to pick up, supported by strengthening external demand and the removal of remaining supply constraints, despite less favorable financing conditions. The labor market is expected to remain relatively resilient in the coming moderate recession. Overall, average annual real GDP growth is expected to slow significantly, from 3.4% in 2022 to 0.5% in 2023, before accelerating to 1.9% in 2024 and to 1.8% in 2025

In the Macroeconomic Forecast of the BNB from December 2022, the expectations for the growth of the real GDP in 2023 is to slow down significantly to 0.4%, which will be determined mostly by the transition from a positive to a negative contribution of the change in stocks in the economy. The growth of economic activity is expected to accelerate to 3.2% in 2024, which will be mainly due to the formation of a low positive contribution of net exports due to the recovery of growth in exports of goods. Annual inflation, measured by the Harmonized Index of Consumer Prices (HICP), is forecast to slow to 4.2% at the end of 2023, with inflation expected to average 7.0% for the year, with short-term pressure on production prices resulting from factors such as realized commodity price increases and supply and labor shortages will continue to weigh on consumer prices. The forecast for inflation at the end of 2024 is for it to slow down to 3.3%, following the downward dynamics of the prices of food and energy raw materials on the international markets.

Source: www.bnb.bg

Eurohold Bulgaria AD strives to monitor the probability of the manifestation of the macroeconomic risk and develops group measures to mitigate as much as possible the impact of the effects that the presence of this risk may have. However, the management cannot completely exclude and limit its influence on the business, financial position, profits and cash flows at the group level. There is also the possibility that the occurrence of this risk may exacerbate other risks or a combination of risks.

Effect on economic growth

The table below presents information on the expectations for economic growth of the Republic of Bulgaria, according to the data of the International Monetary Fund (April 2023: <https://www.imf.org/en/Publications/WEO/Issues/2023/10/10/world-economic-outlook-october-2023>).

| | Historical data | | | | | | Forecast | |
|---------------------|-----------------|------|------|--------|-------|------|----------|------|
| | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 |
| Economic GDP growth | 2.8% | 2.7% | 4.0% | (4.0)% | 7.6 % | 3.4% | 1.7% | 3.2% |

The table below presents information on the economic growth expectations of the countries of the Eurozone (representing the main external market of the Republic of Bulgaria) according to the data of the International Monetary Fund:

| | Historical data | | | | | | Forecast | |
|---------------------|-----------------|------|------|--------|------|------|----------|------|
| | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 |
| Economic GDP growth | 2.6% | 1.9% | 1.5% | (6.3)% | 5.2% | 3.3% | 0.7% | 1.2% |

The Company's management has also analysed the expected economic development of the countries where it operates, as the historical and forecast data from the International Monetary Fund are presented in the table below:

| Forecast July 2023 | Historical data | | | | | | Forecast | |
|-----------------------------|-----------------|------|------|---------|-------|---------|----------|------|
| | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 |
| Republic of North Macedonia | 1.1% | 2.9% | 3.9% | (4.7)% | 3.9% | 2.2% | 2.5% | 3.2% |
| Republic of Ukraine | 2.4% | 3.5% | 3.2% | (3.8)% | 3.4% | (29.1)% | 2.0% | 3.2% |
| Republic of Georgia | 4.8% | 4.8% | 5.0% | (6.8)% | 10.5% | 10.1% | 6.2% | 4.8% |
| Hellenic Republic | 1.1% | 1.7% | 1.9% | (9.0)% | 8.4% | 5.9% | 2.5% | 2.0% |
| Republic of Poland | 5.1% | 5.9% | 4.6% | (2.0)% | 6.9% | 5.1% | 0.6% | 2.3% |
| Italy Republic | 1.7% | 0.9% | 0.5% | (8.9)% | 6.9% | 3.7% | 0.7% | 0.7% |
| Kingdom of Spain | 3.0% | 2.3% | 2.0% | (11.1)% | 6.4% | 5.7% | 2.5% | 1.7% |
| United Kingdom | 2.4% | 1.7% | 1.6% | (11.0)% | 7.6% | 4.1% | (0.5)% | 0.7% |

As can be seen from the above data, the management takes into account the possible short-term risks on the general development of the economy of the main countries, as in some of the markets the expected reduction of the Gross Domestic Product would be significant, but also takes into account the general expectations for a rapid recovery in the period 2022-2023 with expectations for a return to average projected growth levels prior to the Covid-19 coronavirus pandemic.

Effect on credit ratings

As a result of the expected economic effects of the slowdown in general activity, some rating agencies have downgraded their outlook on long-term debt positions, both in terms of sovereign debt and corporate debt positions. The table below presents information on the credit rating awarded by Fitch to the Republic of Bulgaria and the Company.

| | Rating | Outlook |
|----------------------------------|--------|----------|
| Republic of Bulgaria (May 2023) | BBB+ | Positive |
| Eurohold Bulgaria AD (June 2023) | B | Stable |

The following is information on the change in the credit rating (including forecast) assigned by Fitch to the countries where the Group operates:

| | Rating | Outlook | Data |
|-----------------|--------|----------|------------|
| Romania | BBB- | Stable | 08.09.2023 |
| North Macedonia | BB+ | Stable | 06.10.2023 |
| Ukraine | CC | n/a | 23.06.2023 |
| Georgia | BB+ | Positive | 14.06.2023 |
| Greece | BB+ | Stable | 09.06.2023 |
| Poland | A- | Stable | 23.06.2023 |
| Italy | BBB | Stable | 12.05.2023 |
| Spain | A- | Stable | 26.05.2023 |
| United Kingdom | AA- | Negative | 02.06.2023 |
| Netherlands | AAA | Stable | 18.08.2023 |

Management continues to monitor the development of the credit risk for the countries where the Company operates, as well as the main investments (subject to both markets and credit risk).

Analysis of the expected effect on the model of IFRS 9

The Company's management has analysed the expected effect on the overall model of IFRS 9, the results of which are presented in detail below. The focus of the analysis includes:

- The assessment of the deterioration of the credit quality of the counterparties.
- The assessment of the potential effect on the expected credit losses from the exposures to the counterparties.

The general conclusion of the Company's management is that, at the time of issuing this report, no significant deterioration in the credit quality of counterparties due to the war in Russia and Ukraine or the dynamic macroeconomic environment is expected in the short term. Management continues to closely monitor for long-term indications of deterioration.

With respect to the model (including the full and simplified model) for calculating expected credit losses, management believes that no change to the overall model is necessary. The management takes into account the possible short-term risks on the general development of the economy of the main countries in which the Company operates, and in some of the markets the expected reduction of the Gross Domestic Product would be significant, but also takes into account the general expectations for business normalization in 2023, as it is already happening in 2023 with the prices of energy resources.

Since as of 30 September 2023, neither sufficiently reliable macroeconomic statistics nor information on medium-term default probability levels are available, Management has not recalculated/changed the model regarding Expected Credit Losses compared to those as of 31 December 2022.

Military conflict between Ukraine and Russia

There are force majeure circumstances that can affect business activities in all spheres worldwide. This was caused by the military actions taken by Russia and its invasion of the territory of Ukraine.

As a result of the war that started, a number of countries from around the world, including countries from the European Union, took drastic sanctions against Russia, and partially against Belarus, which supports it.

Eurohold Bulgaria owns, through its subsidiary Euroins Insurance Group AD, investments in insurance companies in Ukraine (*Note 13*).

The Company has obligations under bank loans to the International Economic Bank, Russia and the International Bank for Economic Cooperation, Russia (*Note 20*).

Management will continue to monitor the potential impact and will take all possible steps to mitigate the potential effects.

Climate - related matters

Climate change may affect the entity's assets and liabilities in the reporting period or in the future. Changes in legislation resulting from climate issues may be known (e.g. regulations or negotiated commitments to mitigate the effects of pollution) or only anticipated (e.g. potential changes in business models as well as consumer behaviour, commercial counterparties, creditors and investors). They affect the fair value of assets/liabilities regardless of whether the risks or opportunities associated with them are real or perceived.

Consistent with the previous year, as of 30 september 2023, the Company has not identified significant risks caused by climate change that could have a negative and material impact on the Company's financial statements. Management continually assesses the impact of climate-related issues.

Assumptions could change in the future in response to upcoming environmental regulations, new commitments made and changing consumer demand. These changes, if not foreseen, could have an impact on the future cash flows, financial results and financial condition of the Company.

2.1.6. Cash Flows

The interim condensed separate statement of cash flows shows the cash flows for the year in relation to operating, investment and financial activity during the year, the change in cash and cash equivalents for the year, cash and cash equivalents at the beginning and at the end of the year.

The operating cash flows are calculated as a result of the year adjusted with the non-cash operating positions, changes in net turnover capital and corporate tax.

Investment activity cash flows include payments about purchase and sale of fixed assets and cash flows related to the purchase and sale of entities and operations. Purchase and sale of other securities which are not a cash and cash equivalents are also included in the investment activity.

Financial activity cash flows include changes in the amount or composition of share capital and the related costs, the borrowings and the repayment of interest-bearing loans, purchase, and sale of own shares and payment of dividends.

Cash and cash equivalents include bank overdraft, liquidity cash and securities for term less than three months.

3. Dividend income

| | 30.09.2023 <i>BGN'000</i> | 30.09.2022 <i>BGN'000</i> |
|-----------------|------------------------------|------------------------------|
| Euro-Finance AD | 1 306 | 2 102 |
| | 1 306 | 2 102 |

4. Gains from the sale of investments in subsidiaries, transactions with financial instruments and subsequent valuations

| | 30.09.2023 <i>BGN'000</i> | 30.09.2022 <i>BGN'000</i> |
|--|------------------------------|------------------------------|
| Gains on sale of investments in subsidiaries | - | 97 |
| Gains from sale of investments and financial instruments | - | 78 |
| Income from revaluation of debt instruments measured at fair value | 64 | 602 |
| | 64 | 777 |

In the first nine months of 2023

Income from revaluation of debt instruments measured at fair value include:

- BGN 63 thousand gains from the sale of purchased own bonds from the EMTN Program in EUR with ISIN XS1731768302 (*Note 21*).
- BGN 1 thousand from revaluation of purchased own bonds with ISIN BG2100002224 (*Note 21*).

In the first nine months of 2022

Gains from the sale of investments in subsidiaries are related to the transfer of ownership of the shares of Auto Union AD to a third party (*Note 13*).

Gains from operations with investments and financial instruments include:

- BGN 63 thousand profit from the sale of purchased own bonds from the EMTN Program in EUR with ISIN XS1731768302 (*Note 21*);

The subject of activity of the subsidiaries is as follows:

- Euroins Insurance Group AD - acquisition, management, evaluation and sale of participations in Bulgarian and foreign companies. The company is active in Bulgaria, Northern Macedonia, Ukraine and Georgia. Euroins Insurance AD, part of Euroins Insurance Group AD, operates on the principle of Freedom of Services in the following Member States of the European Union: Republic of Poland; Republic of Italy; Kingdom of Spain; Germany; Kingdom of the Netherlands. Business area - insurance market.
- Eastern European Electric Company II BV, the Netherlands - acquisition and management of energy market companies;
- Euro-Finance AD - Providing and performing investment services and activities in the country and abroad. Business direction - Investment intermediation and asset management - Bulgaria;
- Electrohold Green EOOD - consulting and investment activities, construction and maintenance of photovoltaic power plants, trade in solar panels and accessories, real estate transactions. As of 30.09.2023, the company did not performed any activity.

13.1. In the first nine months of 2023

13.1.1. Euroins Insurance Group AD

On 10 February 2023, Eurohold Bulgaria informed the public about illegal actions of employees of the Romanian insurance supervision against the Romanian insurance company "Euroins Romania Asigurare-Reasigurare" S.A. (Euroins Romania) part of the group. Eurohold has informed the FSC and a number of competent state and international bodies and institutions about these actions. On the website of Eurohold Bulgaria AD, in the news section (www.eurohold.bg), the information published by the company can be followed, as well as the subsequent actions and measures taken.

On 17 February 2023, the management of Eurohold Bulgaria AD informed the public (news section of www.eurohold.bg) that despite its disagreement with the actions of insurance supervision officials in Romania against the local division of Euroins in order to protect the company from more further regulatory overpressure, Euroins Romania concluded a new reinsurance contract with the group's reinsurer - ZD EIG Re EAD (EIG Re). This contract guarantees the payment of all claims of the Romanian insurer and ensures the transfer of a significant part (87%) of the risk in its portfolio outside the company, thereby retroceded to leading European reinsurers.

On 17 March 2023, the Romanian financial regulator (Autoritatea de Supraveghere Financiară) revokes the insurance activity license of Euroins Romania Insurance - Reinsurance S.A., a subsidiary of Euroins Insurance Group AD. The regulator's decision also includes the opening of bankruptcy proceedings and the appointment of the Insurance Guarantee Fund (Fondul de Garantare a Uzumedilor) as a temporary administrator of the company.

The management of Eurohold Bulgaria AD, a majority shareholder in Euroins Insurance Group AD, made a statement that, apart from Euroins Romania, all other subsidiaries and businesses of the Eurohold Group, including insurance, are operating and will continue to operate as usual and without any problems, serving their customers and duties and executing their business plans for the year.

On 21 March 2023, Eurohold requested the return of the license to Euroins Romania. At a press conference in Bucharest, the holding warned that the ASF's decision to revoke the license and request for bankruptcy leads to the termination of all reinsurance contracts of the Romanian company, as a result of which all damages and claims will have to be paid by the Guarantee Fund (this condition is basic and standard for each reinsurance contract).

On 9 June 2023, Euroins Romania Asigurare-Reasigurare S.A., Romania (Euroins Romania) is in bankruptcy.

13.1.2. Eastern European Electric Company II B.V.

In September 2023, the management of Eurohold Bulgaria AD decided to return additional capital contributions of EUR 22 million from Eastern European Electric Company II B.V.

13.2. In the reporting year 2022

| | Net value as of 01.01.2022 | Increase | Decrease | Net value as of 31.12.2022 | Share capital of the subsidiary | % interests in subsidiaries |

Euroins Insurance Group AD

In connection with the termination of the license of the Romanian subsidiary of Euroins Insurance Group AD on 17 March 2023 and based on the review of the report of the independent licensed appraisers (as of 31 December 2022, the recoverable amount determined by the appraisers is BGN 478 661 thousand), the management of Eurohold Bulgaria AD has reviewed the appraisers' report and has noted the possibility of hidden effects in relation to the revocation of the license of Euroins Romania Insurance - Reinsurance S.A. and the potential violations of the synergy in the EIG group, maintaining its conservative approach in the assessment of assets, considered that the investment in Romania should be depreciated to the value of the company's reputation in the amount of BGN 52 715 thousand. As a result, in 2022, a depreciation expense of investments in subsidiaries was reported in the amount of BGN 52 715 thousand, and the net value of the investment as of 31.12.2022 was in the amount of BGN 471 100 thousand.

At the end of 2022, Euroins Insurance Group AD sold its investments in Belarus (subsidiary) and Russia (associate).

Eastern European Electric Company II B.V.

In 2022, Eurohold Bulgaria AD increased the capital "Eastern European Electric Company II" B.V. according to the applicable provisions of the Dutch legislation - by means of cash contributions with a total amount of EUR 7 255 thousand without the issue of units, the contributions being transferred to a premium reserve.

Electrohold Green Ltd

On 23.05.2022, the Board of Directors of Eurohold Bulgaria AD decided to establish a subsidiary Electrohold Green EOOD with a capital of BGN 20 thousand, divided into 20 equal shares of BGN 1 000 each. As of 31.12.2022, the company has not performed any activity.

Auto Union AD

With the Share Sale and Purchase Agreement dated 30.06.2022, the ownership of the 80 001 shares owned by Eurohold Bulgaria AD was transferred to a third party. The shares are available, registered, non-privileged and represented 99.99% of the capital of Auto Union AD. As a result of the transaction, Eurohold Bulgaria AD reports a profit from the sale of investments in subsidiaries in the amount of BGN 97 thousand.

Eurolease Group AD

With the Share Purchase Agreement dated 30.06.2022, the ownership of 510 861 shares owned by Eurohold Bulgaria AD was transferred to a third party. The shares are available, registered, non-privileged shares and represented 90.01% of the capital of Eurolease Group AD. As a result of the transaction, Eurohold Bulgaria AD reports a loss from the sale of investments in subsidiaries in the amount of BGN 13 465 thousand.

Daru Invest EAD

On 24.02.2022, the Board of directors of Eurohold Bulgaria AD decides to establish a company Daru Invest EAD with a capital of BGN 11 740 000 distributed in 11 740 000 available, registered, non-privileged voting shares, with nominal and issue value from BGN 1 each.

On 22.03.2022, a contract was concluded for the sale of shares of Daru Invest EAD, which finalized the sale of 100% of the capital of Daru Invest EAD.

Impairment of investments in subsidiaries

As of 30.09.2023, the Company has conducted an analysis and assessment of existing indications of impairment of investments in subsidiaries.

The analysis and assessment are on an individual and/or consolidated basis of the subsidiaries. The changes in the financial position and the results compared to the comparative reporting period of the subsidiaries are examined. The main indicators of impairment are: a significant reduction in the volume or suspension of the activity of the subsidiary company/group; loss of markets, customers or technological problems, trends in the deterioration of fundamental financial indicators, as well as a decrease in market capitalization.

The performed analysis and assessment do not report any indications of impairment of investments in subsidiaries as of 30.09.2023.

Appendix 4
30 September 2023

APPENDIX 4

to Art. 12, para. 1, point 1, Article 14 and Article 21, point 3, letter "a" and point 4, letter "a" of the REGULATION No. 2 of 9.11.2021 on initial and subsequent disclosure of information in the case of public offer of securities and admission of securities to trading on a regulated market

for the period 1 January - 30 September 2023

- 1. No change in the persons exercising control over the company**
- 2. Opening of insolvency proceedings for the company or its subsidiary and all material stages related to the proceedings**

No insolvency proceedings have been opened for the company.

On 9th June 2023, the Bucharest court decided to declare bankrupt Euroins Romania Asigurare Reasigurare SA ("Euroins Romania"), an indirect subsidiary of Eurohold Bulgaria AD. The insolvency proceedings were initiated on the basis of a claim filed by the Autoritatea de Supraveghere Financiară (Financial Supervisory Authority of Romania) based on a decision of the Autoritatea de Supraveghere Financiară (Financial Supervisory Authority of Romania) dated 17 March 2023, by which the regulator revoked the licence of Euroins Romania.

The Bucharest Court of Justice admitted a complaint by Euroins Romania and its majority shareholder, Euroins Insurance Group S.A., for unconstitutionality relating to the opening of insolvency proceedings against an insurance company on the basis of a decision by the Romanian regulator to revoke its operating licence without a final, enforceable court decision on the legality of the decision in question, thus depriving the insurance companies of their right to due process and effective judicial review.

- 3. Conclusion or execution of material transactions**

All concluded transactions, including material ones, are disclosed in the Appendices to the interim abbreviated individual financial report for the first nine months of 2023 and in the Interim Condensed Individual Financial Statement as of 30 September 2023.

- 4. No decision to enter into, terminate or cancel a joint venture agreement**
- 5. No change in the company's auditors and reasons for the change**
- 6. There has been no commencement or termination of any legal or arbitration proceedings relating to the debts or claims of the company or its subsidiary, with a cost of the claim of at least 10 per cent of the equity of the company**
- 7. Purchase, sale or pledge of shares in commercial companies by the issuer or its subsidiary**

» there is no

- 8. Other circumstances that the company believes may be relevant to investors in deciding whether to acquire, sell or continue to hold the publicly offered securities**

All important events for Eurohold Bulgaria AD that occurred during the period of the first nine months of 2023, as well as up to the date of preparation of this document, are disclosed in detail in the Interim Condensed Individual Financial Statement as of September 30, 2023.

23 October 2023

Kiril Boshov,

Chairman of the Board and Executive Director of Eurohold Bulgaria AD

Assen Minchev,

Executive Director of Eurohold Bulgaria AD
